

How to make **Stories for My Little Sister** Christmas baskets

Start by printing a basket template off the website. Then, you'll need your felt tip pens or colouring pencils to colour in the characters and make your basket totally spectacular. Don't forget to sign your name so everyone will know what a great artist you are!

Then you'll need some safety scissors and a glue stick. Cut along the outside lines. Then fold along the remaining lines so your pictures are on the outside to form an open box with a handle.

Stick your box together with a little glue on the inside of the each of the flaps. Last of all, put a little glue on the inside of the handle tab, and stick that down to complete your basket.

Now all that's left is to find a cute little gift to put inside (wrapped sweets and candies are perfect), add some ribbon to decorate your basket, and hang your it on your Christmas tree!
